INTRODUCTION

Monastery Lumen of Lumine.

August 7 of the 2002

Now, we will give the knowledge to the Gnostic Nation a series of aspects and generalities on the Gnostic work in the disintegration of the psychological adjuncts. Points that all person should know and to understand if in fact he aspires to become emancipated once and for all and forever of those infrahuman elements called "EGOS", and certainly of their fatal consequences which are due to having them.

1. As it is known to all of us, before wanting to disintegrate an ego, we should know its deep meaning; this means, what is the function that that ego carries out in our human machine. With

what other elements, instincts or longings, that ego is bound; for example there are people that enjoy speaking of chastity in very clear, very wide form, but it is the ego of Lust that hides behind that conversation.

2. There is egos of "anger" that delight speaking of serenity, of understanding, of coexistence, but

behind that conversation there is many ego of anger, arrogance, pride, self love, etc.that likes the others to listen to them, that is to say, to have subordinates.

3. There is many egos of fear, of cowardice, of insecurity, of weakness that enjoy having somebody that listens to their song about their tragedies, sufferings, hardships, etc.

4. It would be countless the quantity of explanations that we would have to make in this present bulletin. It only interests us to give knowledge to the Gnostic Nation, a light in their path so that they don't continue being deceived by an unconscious society, for their false doctrines and certainly for their own psychological adjuncts that look for accommodation in their mind, in their emotions and in their instincts.

5. The moment has arrived in any serious, responsible person, lover of the wisdom of GOD, and

prepared to go towards their own liberation, don't continue being a puppet and marionette of false

doctrines and philosophies, serious as they seem because they serve to take them away from the path that leads him to his own truth.

6. Us, THE INSTRUCTORS OF HUMANITY, are willing to fight for humanity, to fight for the Gnostic Nation; but secretly to drive a Nation that is able to know, to understand and to value by the light of the logic, the teaching and Gnostic Doctrine.

7. We commonly call the ego the secret enemy, but we also call the Doctrine of my Lord, the SECRET DOCTRINE of the Egyptian sages, Toltecs, and how many others that go back inmemorable times of history.

In this gathering we will explain everything concerning the understanding on the psychological ego and I am sure it will be properly demonstrated that very high percentages of teachings that have been given, are in the basket of garbage that the ego has in our mind.

You are responsible for this continuing this way, or starting from now to give a total overturn to the idea we have about the death of the ego.

Help us brothers, as soldiers of the CHRIST, so that this great harvest that we have is achieved for the glory of our FATHER and of the VENERABLE WHITE LODGE.

Master Samael Aun Weor suffered unspeakably in order to give the teaching. Impatience is born out of preoccupation and ends in preoccupation, for example somebody has an appointment and when seeing that you are late he begins to torture his mental center, he begins to worry, the time passes and the appointment doesn't arrive and already impatiently begins to walk fast here and there and in a act of desperation he begins to kick the pavement.
